

ARTALO

SmartScreen  
+ Google Chromecast

---

**Operating Instructions**

# SmartScreen + Google Chromecast

---

## TECHNICAL CHARACTERISTICS

---

- Stream music and videos via Google TV Chromecast to the integrated 10" SmartScreen screen in the Artalo mirror. It only takes a few minutes to activate your Smart device using your smartphone or tablet. You can then operate the SmartScreen with the remote control (supplied with the mirror) and easily launch services such as Netflix, HBO GO, YouTube or Spotify. Lots of other apps can be easily downloaded on Google Play. Chromecast can also be controlled with your smartphone or tablet. The mirror is equipped with an integrated bluetooth speaker, and it is also possible to connect external speakers. The surface of the mirror in the SmartScreen area is completely transparent, so you will see a clear image. The smart device requires constant power supply. So if you choose to plug the mirror directly into electricity, you need to provide another constant source of electricity for it.

---

## WIRING INSTRUCTIONS

---

1. You'll need a mobile phone, tablet, or computer to connect your SmartScreen with Google Chromecast.
2. Download the Google Home app: Download and install the Google Home app on your device.
3. Launch the app.
4. Wait for Google Chromecast to connect.
5. Select the Chromecast device you want to connect.

6. Verify the code: A verification code will appear on the SmartScreen of the mirror and on your device. Once the code appears, click the "I SEE IT" button in the app.

7. In the last step, choose a device name in the settings.

---
